College Orchestra

We had been looking forward towards the organization of an Orchestra in Straight College since the opening of school in September, 1929, but it was not until February that the orchestra was actually organized. Very few of the older students of Straight College, if any, know all the odds against which we struggled to keep the orchestra going. Miss Bigney our director, has given her assistance and guidance in whatever way she could, and to her the members of the orchestra in particular as well as the whole school, are indebted.
